

**MEAN-DREAM**  
DJ BOOKING AND MANAGEMENT

Since its creation in July 2003, **Mean-Dream DJ Booking & Management** has been blazing a path through club culture, working with the best clubs on earth and selecting only a dozen of hugely talented DJs from various origins and countries, with different yet always impressive DJ'ing skills, to represent us around the globe.

Along the years, Mean-Dream has built up a strong team of gifted DJs and has forged many great relationships with promoters and event organizers all over the world, always looking for another long-term collaborator in every corner of the world to help spread the love of good music.

The DJs on our great roster have played at all the **most exclusive clubs** and **big room venues** worldwide, are signed on the **best labels**... and are all passionate to take Mean-Dream to the top. This blend of cultures makes our team able to move any crowd, and all our guys will rise to the occasion.

A key component while organizing a gig is **trust** in a booking agency. One that can anticipate your needs and provide you with the quality today's difficult and saturated markets demand. That's why Mean-Dream has also worked on a strong network of other agents worldwide to give you the opportunity to book nearly any DJ you would like, even outside our agency. Whether you are a promoter, a club owner or a manager, Mean-Dream can assist you with our international talented DJs to make sure your event is a success.

The **Mean-Dream Sessions** started up as a monthly 2-hour radio show on the leading online radio station, **DI FM**, based in NYC. During more than 4 years, the audience kept growing, leading the show hosted by Solace to compete with shows from John Digweed or the Flash Brothers.

Mean-Dream is now recreating the show's feel by hosting events the globe over, with a different DJ from our roster every month.

...: MEAN-DREAM - PROMOTION :...

For more than 4 years, Mean-Dream has been present on the waves with the famous **Mean-Dream Sessions, hosted by Solace**. Originally hosted on the biggest internet radio, **Digitally Imported (DI FM)**, it has also been exported to many other territories including **Australia (Pulse Radio)**, **Slovakia (DanceOne)**, **Puerto Rico (Dub Radio)** and **Taiwan (DJs.tw)**.

Those shows are now leading to partnerships with the radios hosting them to set up some of the best events available all around the globe.

For our Mean-Dream Sessions events, we're offering a wide promotion to our clients via **free live interviews and live DJ sets** at the local (and national) radios!

For instance, Energy FM, from Romania, hosted a **live streaming** of the Mean-Dream Sessions on their website for all the clubbers who cannot attend. This is a huge success and bring more and more patrons to our customers!

Mean-Dream also provides their customers with artwork for flyers. We also post news and promotion material on all possible media (online, magazines...) to help our customers. And we of course send our clients' information to our **6000+ business emails** and post all necessary promotion on our websites and community pages that see **hundreds of hits every day**. Not to mention our **dedicated Facebook pages** specially focussed on our Mean-Dream Sessions tours.
